

## Profile of Children in Care

Number of children in care at the end of the current quarter, and the median number of days in care over their current status and over the course of the entire time they've been in any form of court-involved protective status.

Status	Children	% of Total	Median Days in Care	
			Current Legal Status	Entire Legal Status
COPS	6,719	31%	110	145
TC	11,601	53%	124	225
PC	3,047	14%	337	1,012
PPLA	646	3%	439	1,047
<b>Total</b>	<b>22,013</b>	<b>100%</b>		

## New Report Rate

Percentage of children with a new substantiated or indicated report that was received within one year after the closure of a court case, averaged over the last four quarters.

2.4%

## Exits from Care

Number of children exiting care over the last four quarters.

Exits	Number of Children				AVG	% of Total
	Q3 2016	Q4 2016	Q1 2017	Q2 2017		
Reunification	1,426	1,273	1,365	1,480	1,386	48%
Adoption	335	482	326	369	378	13%
Guardianship	116	141	119	121	124	4%
Relatives	712	669	690	796	717	25%
Emancipations	249	176	205	256	222	8%
Other	45	63	60	61	57	2%
<b>Total</b>	<b>2,883</b>	<b>2,804</b>	<b>2,765</b>	<b>3,083</b>	<b>2,884</b>	<b>100%</b>

## Length of Stay Upon Exiting Care

Median number of days children were in care prior to exit over the last four quarters.

Exits	Median Number of Days				AVG
	Q3 2016	Q4 2016	Q1 2017	Q2 2017	
Reunification	176	161	215	185	184
Adoption	938	855	924	927	911
Guardianship	204	161	265	120	188
Relatives	253	188	232	203	219
Emancipations	1,198	813	660	943	903
Other	163	135	213	170	170

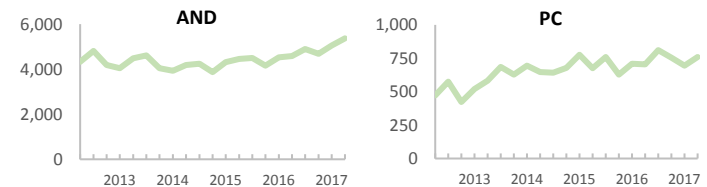

## Removal Reasons

Number of children removed from their homes over the last four quarters, and the reasons documented for those removals. Note that multiple removal reasons can be documented for a child. Accordingly, the total number of documented reasons (not shown) will be greater than the number of children removed.

	Q3 2016	Q4 2016	Q1 2017	Q2 2017	AVG	% Children
	<b>Total Children Removed</b>	<b>3,170</b>	<b>2,709</b>	<b>3,275</b>	<b>3,132</b>	
<b>Children Removed (by category)</b>						
Parental Alcohol/Drug	927	756	1,056	1,035	944	31%
Delinquency/Unruly	311	288	344	333	319	10%
Dependency	1,395	1,132	1,419	1,204	1,288	42%
Neglect	1,276	959	1,291	1,213	1,185	39%
Physical Abuse	516	504	590	564	544	18%
Other	1,028	931	1,214	1,100	1,068	35%
Missing Data	466	351	400	345	391	13%

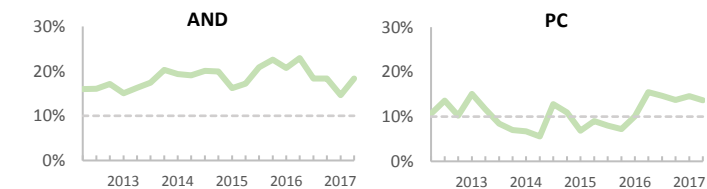

## Incoming Caseloads

New filings and transfers and reactivations, by quarter

## Overage Rates

Percent of cases pending over time guideline, by quarter (Target is <10%)

## PURPOSE OF THE REPORT AND DATA SOURCES

The data contained in this report, as well as in the individualized county-specific companion Permanency Docket Quarterly reports, is designed to provide a foundation for initiating conversations between the child welfare agency and the juvenile court in order to improve local practices and better understand those factors which contribute to county-level performance. Courts and child welfare agencies are encouraged to take advantage of the additional resources available on the Children and Families Section's webpage at: [www.supremecourt.ohio.gov/JCS/CFC](http://www.supremecourt.ohio.gov/JCS/CFC). Child welfare data was obtained from the Statewide Automated Child Welfare System (SACWIS) administered by the Ohio Department of Job and Family Services. Court caseload and performance data was obtained from the Case Management Section of the Supreme Court of Ohio. The data is considered accurate as of the date of the report.

## UNDERSTANDING THE METRICS

**PROFILE OF CHILDREN IN CARE:** This table displays the number of children statewide in an Abuse, Neglect, or Dependency (AND) dispositional status at the end of the current quarter under the following types of care: court ordered protective supervision (COPS), temporary custody (TC), permanent custody (PC), and planned permanent living arrangement (PPLA). Also shown is the median amount of time, in days, that these children have been in that status, as well as the median amount of time, in days, the children have been in any status since they initially became involved with the juvenile court (e.g., some children in PC spent time initially TC, thus the entire time spent in both is shown).

**NEW REPORT RATE:** The figure shown reflects the percentage of children who had a new substantiated or indicated (S/I) report within one year after having a court case closed. Please note that this measure differs from the federal Child and Family Services Review measure of recurrence because it is limited to children who had a new S/I report after the closure of the court case.

**EXITS FROM CARE AND LENGTH OF STAY UPON EXITING CARE:** Shown in this pair of tables are the number of children leaving foster care across the state by the type of placement upon discharge over each of the last four quarters. The relative proportion of total exits for each discharge type, averaged over the four quarters, is also displayed. The second table displays the median amount of time in days to the identified discharge type.

**REMOVAL REASONS:** Shown in the table are the total number of children removed from their homes each quarter, along with the number (and percentages) of those children who were documented as having been removed under the various removal reason categories shown. Because a child can have multiple reasons for their removal, the total number of documented reasons exceeds the total number of children removed.

**INCOMING CASELOADS AND OVERAGE RATES:** The first pair of charts display the number of incoming AND cases and Motions for Permanent Custody (PC) cases filed each quarter in Ohio's juvenile courts. The second pair of charts display the percentage of AND and PC cases pending at the end of each quarter which have been pending (in pre-dispositional status) for longer than the applicable case processing time standard under Sup.R. 39 (three months for AND, and nine months for PC).
