EXAM ADMINISTRATION QUESTIONS

When Can I Register for ExamSoft?

ExamSoft registration opens on January 14, 2021 by 5:00 p.m. and will close on January 29, 2021 at 5:00 p.m. EST. The Supreme Court of Ohio will be paying for the ExamSoft registration fee for the February 2021 exam only.

What Is the Process of Registering for ExamSoft?

ExamSoft will contact examinees via email with instructions for registering the examinee's computer, downloading the software, downloading and taking the mandatory mock examinations, and downloading the required examination files.

What Are the Minimum System Requirements?

[Minimum-System-Requirements-Windows](#)

[Minimum-System-Requirements-Mac-OS](#)

You must have the recommended amount of memory actually available during the exam. Failure to do so may result in exam monitoring failing to record, which could therefore result in an applicant not receiving a grade for that portion of the exam that is without a monitoring file. BE SURE TO CHECK THE AMOUNT OF MEMORY YOUR SYSTEM HAS AVAILABLE.

How Does Examplify ExamID facial recognition work?

ExamID authenticates the identity of examinees to ensure that the person taking the exam is the person who registered for the exam. During the first mock exam, ExamID will take a baseline photo of the examinee. Examinees are urged to have a well-lit room to provide adequate lighting for the photo. It is highly recommended that examinees take this baseline photo in the same well-lit room they intend to take the exam. The software will confirm that the photo taken is acceptable. At the start of each exam session, ExamID will take another photo of the examinee and will compare it to the photo taken during the mock exam to authenticate the examinee's identity. Should an examinee experience an issue with the ExamID authentication at the beginning of an exam session, the examinee will still be permitted to take the exam and Office of Bar Admissions will authenticate the examinee's identity through the video.

THE SUPREME COURT *of* OHIO

How Does Exemplify ExamMonitor (remote proctoring) Work?

The proctoring software will record the examinee (both audio and video) throughout each exam session. The recording will be uploaded to ExamSoft along with the examinee answer files. Once an examinee ends a given session, they may walk away from their computer and the webcam during the break (the audio and video are NOT recording at this time). Examinees must remain at their computer, with their face visible to their webcam, for the entirety of each 90-minute test session. When you submit your exam responses, this video is analyzed by ExamSoft's artificial intelligence (AI) program that will flag any unusual behaviors, movements, or audio. All flagged footage is then reviewed by at least one human proctor to determine whether further analysis as to potential cheating is necessary. For example, a dog barking in the background may be initially flagged by AI, but cleared upon review. These proctors reviewing exam footage will not have access to any personally-identifying information for examinees; all exam materials, including exam footage, are connected only to an examinee ID number.

Are Earplugs Permitted?

Examinees may not wear earplugs, headphones, headsets, or earbuds during testing.

Can Applicants Have Food or Water During the Exam?

You may have clear (no tinted color) bottled water in your exam area. No other food, drink, candy, mints, or gum is permitted during the examination. It is recommended that the water container have a cap as you will not be given extra time if your beverage spills.

Are Bluetooth Keyboards and Mice Permitted?

Yes, examinees may use Bluetooth keyboards or mice, but they must be paired to the computer prior to launching Exemplify or they will not be able to be used. **IMPORTANT TIP:** If you want to use an external keyboard or mouse on exam day, you should set this up prior to doing one of the mock exams to confirm that it works. It is very important to take a mock exam using the same setup as you intend to use on the exam day. If you already completed the first mock exam, you can take the second mock exam to confirm if your external keyboard and/or external mouse works with Exemplify.

Is Scratch Paper Permitted?

Scratch paper is not permitted for the MEE or MBE portions of the exam. Ohio is permitting the use of scratch paper for the MPT item only. For the MPT portion of the exam, examinees may use up to two (2) sheets of blank 8 ½ x 11-inch paper, lined or unlined, and up to 3 total non-digital pens or non-mechanical pencils. No highlighters are permitted. When the MPT session begins, examinees will be required to show both pieces of paper, front and back, and all writing utensils to the camera. Examinees must remove scratch paper and writing implements from the secure testing area following the MPT portion of the exam. Use of scratch paper during any other portion of the exam is NOT permitted and will result in a misconduct flag warranting further investigation.

Regarding the MBE Portion of the Exam, How do I Select an Answer?

Once you have identified your answer to a MBE question, you must select that answer. ExamSoft allows you to strike through an option you have identified as incorrect. Examinees must actually select an answer and not just strike through the purported incorrect answers to receive credit for a particular question.
