ALLEN HOLLAR

Plaintiff

v.

OHIO DEPARTMENT OF TRANSPORTATION

Defendant

Case No. 2011-08741-AD

Deputy Clerk Daniel R. Borchert

MEMORANDUM DECISION

{¶1} Plaintiff, Allen Hollar, filed this action against defendant, Department of Transportation (ODOT), contending his car was damaged as a proximate result of negligence on the part of ODOT in maintaining a hazardous condition on Interstate 77 north near Akron, Ohio. Plaintiff stated that he was traveling in the middle lane when “we felt an heard a loud noise & left front of my car hit this hole in the road.” Plaintiff related that the car suffered significant damage to the left front end. Plaintiff recalled his described damage incident occurred on March 12, 2011, at approximately 10:00 p.m. In his complaint, plaintiff requested damages in the amount of \$963.00, the cost of associated automotive repairs and reimbursement of the \$25.00 filing fee. The filing fee was paid.

{¶2} Defendant filed an investigation report requesting plaintiff’s claim be dismissed due to the fact the City of Akron and not ODOT bears the maintenance responsibility for the section of roadway where plaintiff’s incident occurred. In support of the request to dismiss, ODOT stated, “the City of Akron, and not the defendant, is responsible for maintaining the roadway upon which plaintiff’s incident occurred on I-77.” Defendant advised the maintenance responsibility for this section of roadway was delegated by contractual agreement between ODOT and the City of Akron. Defendant

related: “[o]n November 6, 2009, the Ohio Department of Transportation entered into an Interstate Lane Mile and Maintenance Agreement with the City of Akron for maintenance services. I-77 is part of the Interstate Lane Mile and Maintenance Agreement (See Exhibit A).”

{¶3} The contract between ODOT and the City of Akron at Section 1.2 states, in pertinent part:

{¶4} “In the interest of public safety and convenience, it is the desire of the parties hereto that the CITY shall perform contracted maintenance and repair of the interstate highway system using its own labor forces, equipment and materials, or by contracting for these items, with reimbursement from the STATE.”

{¶5} Defendant asserted the contracted maintenance responsibility includes repairing potholes in the roadway such as plaintiff’s vehicle struck on March 12, 2011. Defendant contended, “the City of Akron assumed the responsibility to maintain and repair the interstate system within its corporate limits,” and consequently, the City of Akron should be considered the proper party defendant in this action. The site of the damage-causing incident was shown to be located within the City of Akron and shown to be the maintenance responsibility of that political subdivision.

{¶6} R.C. 2743.01(A) provides:

{¶7} “(A) ‘State’ means the state of Ohio, including, but not limited to, the general assembly, the supreme court, the offices of all elected state officers, and all departments, boards, offices, commissions, agencies, institutions, and other instrumentalities of the state. ‘State’ does not include political subdivisions.”

{¶8} R.C. 2743.02(A)(1) states in pertinent part:

{¶9} “(A)(1) The state hereby waives its immunity from liability, except as provided for the office of the state fire marshal in division (G)(1) of section 9.60 and division (B) of section 3737.221 of the Revised Code and subject to division (H) of this section, and consents to be sued, and have its liability determined, in the court of claims created in this chapter in accordance with the same rules of law applicable to suits between private parties, except that the determination of liability is subject to the limitations set forth in this chapter and, in the case of state universities or colleges, in section 3345.40 of the Revised Code, and except as provided in division (A)(2) or (3) of this section. To the extent that the state has previously consented to be sued, this

chapter has no applicability.”

{¶10} Ohio Revised Code Section 5501.31 in pertinent part states:

{¶11} “Except in the case of maintaining, repairing, erecting traffic signs on, or pavement marking of state highways within villages, which is mandatory as required by section 5521.01 of the Revised Code, and except as provided in section 5501.49 of the Revised Code, no duty of constructing, reconstructing, widening, resurfacing, maintaining, or repairing state highways within municipal corporations, or the bridges and culverts thereon, shall attach to or rest upon the director, but he may construct, reconstruct, widen, resurface, maintain, and repair the same with or without the cooperation of any municipal corporation, or with or without the cooperation of boards of county commissioners upon each municipal corporation consenting thereto.”

{¶12} The site of the damage-causing incident was not the maintenance jurisdiction of defendant. Consequently, despite the arguments raised in the August 29, 2011 response, plaintiff’s case is dismissed. See *Sandu v. Ohio Dept. of Transp.*, Ct. of Cl. No. 2008-02606-AD, 2008-Ohio-6858.
