

PRESS RELEASE

The Board of Trumbull County Commissioners in sync with Trumbull County Health Commissioner, Frank Migliozi, are shutting down all county buildings under their jurisdiction and all employees, other than emergency essential employees, have been sent home until further notice. There are employees that have presented themselves with symptoms similar to COVID-19 and as we wait for test results, we are presuming these individuals as presumptive cases. In the abundance of caution to prevent the spread of COVID-19 throughout the Trumbull County workforce, we have suspended operations other than emergency personnel until such time as more information is available to us and test results are received.
