### 2011 OSDPN MEETINGS & RSVP

#### **THE OHIO SPECIALIZED DOCKETS PRACTITIONER NETWORK**

With over 140 specialized dockets in operation throughout Ohio, the Supreme Court of Ohio, the Ohio Department of Alcohol and Drug Addiction Services and the Ohio Department of Mental Health have recognized the need for interaction among the professionals that staff these courts. In order to provide such a forum, the Ohio Specialized Docket Practitioner Network was created to provide peer support and technical assistance to these programs. The Network is comprised of several sub-networks that meet by discipline. These sub-network meetings allow specialized docket practitioners to discuss the challenges and successes they have faced in their specific role on the specialized docket court team. In addition, the sub-network meetings offer opportunities for specialized docket professionals to provide program updates, discuss program operations, and discover innovative and effective strategies employed by other specialized dockets. If you are a member of a court's specialized docket team and would like to participate in the Network or learn more, then please contact our office at (614) 387-9425.

## NEWS

### **COURT DOCKET TAILORED TO VETERANS' NEEDS WILL BE WELCOME IN CLEVELAND: EDITORIAL**

Sometimes, when they come home, the war comes with them. Sometimes they collect speeding tickets as if they're on sale, and blow through red lights as if they're blind. But they're not blind. A part of them is still in Kabul, Baghdad, Mosul, Mogadishu. They're in combat zones where traffic signals are traps, setups for bombers and snipers. [More...](#)

### **VETERANS GET THEIR DAY IN CLEVELAND MUNICIPAL COURT'S TREATMENT PROGRAM**

In the service, veterans had their buddies to watch their backs, both in and out of combat. In the civilian world, things can get more complicated, confusing and lonely for vets. That's why Cleveland Municipal Court is creating a Veterans Treatment Court, starting in September, that will solely handle the cases of vets who run afoul of the law in Cleveland. Judge Lynn McLaughlin-Murray will preside over the court, with Judge Angela Stokes serving as alternate. [More...](#)

### **OHIO BILL WOULD BAN SYNTHETIC DRUGS YET TO BE DEVELOPED**

Enterprising chemists may soon lose their ability to turn a profit with synthetic drugs - even those they haven't created yet.

The General Assembly has sent a bill to Gov. John Kasich that would ban a synthetic version of marijuana known as "Spice" or "K2," as well as chemicals in products marketed as bath salts that some say have effects similar to PCP or LSD. [More...](#)

### **RICHLAND COUNTY STRUGGLING TO GET AHEAD OF 'BATH SALTS' PROBLEM**

Richland County is leading the state, but not in a way local authorities would like. "We're one of the first communities in Ohio to deal with bath salts," said Vivian Winters, adult program director at The Center for Individual and Family Services. "A lot of places have never even heard of them before." Bath salts is a synthetic drug that creates a high that can last several hours or up to days. The long-term effects are still unknown. ### **MENTAL-HEALTH UNIT SET TO OPEN AT NATIONWIDE CHILDREN'S HOSPITAL**

Sometimes young people in a mental-health crisis don't need to be admitted to the hospital but aren't quite ready to go home either. Next month, Nationwide Children's Hospital will open a unit especially for those children and teens. The goal is to provide patients mental-health services tailored to their age, provide support for their families and make sure the transition back home and into community care is as smooth as possible. ### **RULING RENDERS BREATHALYZER RELIABILITY CHALLENGEABLE**

In a finely parsed legal ruling on the admissibility of breath-testing evidence in drunk-driving cases, Athens County Municipal Judge William A. Grim has opened the door for defense attorneys to challenge the reliability of a breathalyzer machine that's widely used by police across Ohio. In his

ruling issued last Wednesday, Grim said he's concerned by evidence suggesting radio interference from cell phones can skew the results given by the Intoxilyzer 8000, and that police officers using the machine can drive up the numbers they get for blood-alcohol levels by the way they administer and record a test. ### ADOLESCENT SUBSTANCE USE STUDY

The National Center on Addiction and Substance Abuse released a study today entitled [\*Adolescent Substance Use: America's #1 Public Health Problem\*](#). It reported that 9 out of 10 people suffering from addiction began using the addictive substance before they were 18. Addiction occurs in 1 in 4 people who started smoking, drinking, or using drugs before age 18, compared to only 1 in 25 for those who started at age 21 or older. Sadly, seventy-five percent of high school students have used addictive substances, with alcohol being the preferred choice. Forty-six percent of high school students are currently using an addictive substance, and 1 out of 3 of these students meets the medical criteria for addiction. Part of the problem is American culture and the acceptance of addictive substance use by parents, communities, and schools. Forty-six percent of children under 18 live in a household where smoking, excessive drinking, misuse of prescriptions drugs or use of illegal drugs occurs. The study highlights the cost of this epidemic, as well as the consequences for adolescents, including teen pregnancy, psychosis, impaired brain function, criminal involvement, and death.
