2011 OSDPN MEETINGS & RSVP

THE OHIO SPECIALIZED DOCKETS PRACTITIONER NETWORK

With over 140 specialized dockets in operation throughout Ohio, the Supreme Court of Ohio, the Ohio Department of Alcohol and Drug Addiction Services and the Ohio Department of Mental Health have recognized the need for interaction among the professionals that staff these courts. In order to provide such a forum, the Ohio Specialized Docket Practitioner Network was created to provide peer support and technical assistance to these programs. The Network is comprised of several sub-networks that meet by discipline. These sub-network meetings allow specialized docket practitioners to discuss the challenges and successes they have faced in their specific role on the specialized docket court team. In addition, the sub-network meetings offer opportunities for specialized docket professionals to provide program updates, discuss program operations, and discover innovative and effective strategies employed by other specialized dockets. If you are a member of a court's specialized docket team and would like to participate in the Network or learn more, then please contact our office at (614) 387-9425.

OHIO & KENTUCKY TO SHARE DRUG DATA THROUGH INTERSTATE PRESCRIPTION MONITORING PROGRAM

Ohio Gov. John R. Kasich and Kentucky Gov. Steve Beshear announced this week that the two states will cooperate on an electronic Prescription Monitoring Information Exchange (PMIX) pilot project that aims to curb "doctor shopping" and prevent other drug-seeking behaviors contributing to the opiate epidemic in both states. The PMIX program is a partnership between the Ohio Automated Rx Reporting System (OARRS) coordinated by the Ohio State Board of Pharmacy and the Kentucky All Schedule Prescription Electronic Reporting (KASPER) system, which is overseen by Kentucky's Cabinet for Health and Family Services. PMIX is the latest development to come out of the Interstate Opiate Task Force, which has brought officials from Ohio, Kentucky and West Virginia together to share policies and best practices around opiate addiction education, treatment and enforcement.

JUVENILE COURT OFFICIAL: 'WE'RE SEEING KIDS DIE'

Lake County Juvenile Court officials are taking a close look at what they believe could be an epidemic. "We're seeing kids die," said Chris Simon, the court's director of administration. "Last year, we had a couple kids on probation who died of heroin overdoses. It's very unusual for anyone to die while being closely monitored like that." Juveniles are committing less crime overall, but underage drug offenses are skyrocketing. In Geauga County, alcohol charges decreased by 6.6 percent over 2009. [More...](#)

Founded in 1948, the primary mission of the Foundation is to foster public policies, human-service reforms, and community supports that more effectively meet the needs of vulnerable children and families. RESEARCH & RESOURCES

NADCP's National Drug Court Institute is proud to announce the release of [Painting the Current Picture: A National Report on Drug Courts and Other Problem-Solving Court Programs in the United States.](#)

Funded by the White House Office of National Drug Control Policy (ONDCP), in partnership with the Bureau of Justice Assistance (BJA), U.S. Department of Justice, this comprehensive report compiles data from two rigorous national surveys of all U.S. states, commonwealths, districts and territories for years 2008 and 2009.

In addition to reporting the aggregate number and types of operational Drug Courts and other Problem-Solving Court programs throughout the United States, the report provides an in-depth synthesis of recent research findings related to the most prevalent Drug Court models. Additional sections report national Drug Court capacity; average graduation rates; participation costs; as well as drug-of-choice trends among Drug Court participants in rural, suburban, and urban areas; state and federal Drug Court authorization legislation and appropriations, and international Drug Court activity. Additionally, the 2011 Painting the Current Picture includes the first-ever national demographic data on racial and ethnic minority representation among Drug Court participants.

"Painting the Current Picture contains a valuable snapshot of Drug Court and Problem-Solving Court operations," said West Huddleston, NADCP CEO and co-author of the report. "There is a wealth of information contained in this report, and the data makes it abundantly clear why Drug Courts and Problem-Solving Courts continue to thrive despite the difficult economic times with which we are now faced. This report is an important contribution to state and national justice reform efforts and I urge every justice professional, policymaker, community leader, legislator, educator, and concerned citizen to order or download a copy today."
