## MOTION AND PROCEDURAL RULINGS

### **1985-1616. State v. Brooks.**

Cuyahoga App. No. 48914. This cause came on for further consideration upon the filing of appellant's motions for stay of execution pending completion of competency determination appellate litigation (and supplemental memo and declaration), for stay of execution pending motion for new trial litigation, and for stay of execution while the Ohio death penalty system is studied.

Upon consideration thereof, it is ordered by the court that the motions are denied.

O'Donnell, J., concurs in part and dissents in part and would grant the stay regarding competency to be executed pending the decision of the court of appeals on that issue.
